### USCG CHANGES

As of 1 Jan 05, USCG communications will no longer be authorized on 381.8 Mhz. The US Coast Guard freq setup will include the following:

Ops Primary 345.000  
Ops Secondary 237.900  
Air-Ground Working, Primary 326.150  
Air-Ground Working, Secondary 379.050

### MONITORING THE NEW YEAR!

It's hard to believe that another year has come and gone. Our next issue begins this newsletter's 10th anniversary!

About this time every year we receive several e-mails, requesting a list of suggested frequencies tied to the Times Square New Year's Eve celebration.

Just about every channel in NYC will see an increase in activity, though these will concentrate on the Times Square area.

### HAPPY NEW YEAR!

I'd like to take this opportunity to wish each of you a very healthy, happy and prosperous 2005. Suffice to say, 2004 presented us with many challenges, some good and some bad.

I'd like to also thank all of you who contributed content to this newsletter, whether it was written text or simply an idea. While I physically create the newsletter, it is our readers and those who check into our weekly net that submit more than 50% of what's in each issue.

Our next issue Marks the beginning of our 10th year.

Urban DX'er would like to thank all those who contributed to this month's issue!
